Allowable Subject Matter

1. Claims 18, 20-28, 30, 33, & 35-43 are allowed. The following is an Examiner's statement of reasons for allowance:

Claims 18, 20-28, 30, 33, & 35-43 are considered allowable because no prior art reference or combination of prior art references disclose or suggest the combination of limitations specified in the independent claims including:

“wherein the processor generates a second segment corresponding to at least another portion of the time-sensitive information upon receipt of an acknowledgement message from a receiver wherein the second segment comprises a second segment size less than the minimum segment size” in combination with other claim limitations as specified in claim 18.

“wherein the means for generating generates a second segment, corresponding to at least another portion of the time-sensitive information , upon receipt of an acknowledgment message from a receiver wherein the second segment comprises a second segment size less than the minimum segment size” in combination with other claim limitations as specified in claim 30.

“generating a second segment, corresponding to at least another portion of the time-sensitive information , upon receipt of an acknowledgement message from a receiver, wherein the second segment comprises a second segment size less than the minimum segment size” in combination with other claim limitations as specified in claim 33.

Note: It should also be noted that because physical structure has been defined in claim 18 ie. queue and processor; claim 30 ie. means for ... ; and claim 33 ie. queue the examiner has concluded that there are no 101 rejection issues.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
